Packed to Persist

The best packaging materials and standards, with our unique five layer comprising Bubble, Thermocol, Corrugated Sheet, Lamination, Rubber Sheet / Wooden crate packing instead of four layer packaging systems your equipment stays sealed tight and safe. We ensure point to point and safe delivery of goods, or guarentee for the same !

On site managers over see the use of such material specific to your goods, its size and how it needs to be handled. Over the years we have defined standards for a well packed item and continue to follow the same.

Cargo with Care

We use the best in the market, an efficient fleet to ensure safe delivery and timely delivery of goods. The associated experience is that of assurance and we make all ends meet to ensure we deliver on this promise .

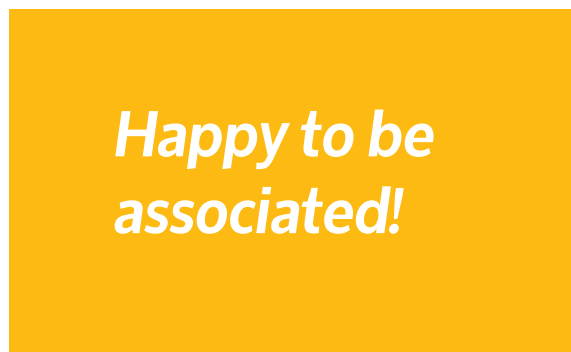

Our service is complete with insurance, safety, packing and safety standards, reinforcing the fact that we look at our cargo with care. Our fleet includes a wide range of open and closed container vehicles involving volumes right from 8ft to 36 ft.

Documentation to Detail

Thorough documentation, detailing and profiling of the goods to ensure that we maintain counts and material details, more over we ensure specific transport for specific materials. Documents help keep our customers in the loop and assured !

Competitive pricing and detailed approach in process is what makes us the preferred choice.
